RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner of Patents
Washington, DC 20231

Sir:

In response to the Restriction Requirement of August 10, 2004,
Applicants hereby elect Group I, claims 1-14 and 18-19, with
traverse.

Applicants respectfully request withdrawal of the Restriction
Requirement. No unduly extensive or burdensome search would be
required to examine the various claims of the noted Groups in the
same application. MPEP §803 states:

"If the search and examination of
an entire application can be made
without serious burden, the
Examiner must examine it on the
merits even though it includes
claims to distinct or independent
inventions." (Emphasis added)

In the present case, the search for all pending claims together
would not be burdensome.

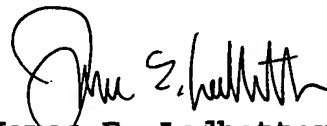

Moreover, from the standpoint of costs to the Applicants involved in filing, issuance and maintenance fees relating to separate applications if the present Restriction Requirement is maintained, it is clear that there is substantially more burden on Applicants by imposing the present Requirement than on the Patent Office if the Requirement were withdrawn.

In addition, it is noted that to require the claims of the various Groups to issue in separate patents would result in inconvenience to the public by necessitating reference to more than one patent during searching, to review closely related subject matter.

Therefore, withdrawal of the Restriction Requirement is warranted.

Reconsideration and withdrawal of the Restriction Requirement are respectfully requested.

Respectfully submitted,

James E. Ledbetter
